MODELS AND DIMENSIONS

MODELS

MODEL	COMPARTMENTS / PERSONS	OVERALL W × D × H (MM)
AD4x1	4	417 × 420 × 2040
AD4x2	8	804 × 420 × 2040
AD4x3	12	1191 × 420 × 2040
AD4x4	16	1578 × 420 × 2040

Height is taken at the rear edge of the sloping top. Each compartment is assigned to one person. The lock type ends the model code: -K1 Spring-latch lock with padlock eye (standard), -K2 Electronic keypad lock, -K3 Keyed cam lock; e.g. AD4x2-K1.

DIMENSIONED DRAWING

AD4x2 mm

AD4x2: front and side views. Dimensions in mm, taken from the CAD model.

DIMENSIONS IN THE DRAWING

OVERALL WIDTH	**804 mm**
DEPTH	**420 mm**
FRONT HEIGHT	**1870 mm**
REAR HEIGHT	**2040 mm**
DOOR (W × H)	**350 × 392 mm**
COLUMN PITCH	**387 mm**
FLOOR TO UNDERSIDE OF THE FRAME	**119 mm**

LOCK OPTIONS

K1 · Spring-latch lock with padlock eye

STANDARD The spring latch catches when the door is pushed shut, and the turn handle has an eye for a padlock.

K2 · Electronic keypad lock

OPTIONAL Opened with a code entered on the keypad, so no key or padlock has to be carried.

K3 · Keyed cam lock

OPTIONAL A cylinder cam lock operated with a key; only the lock head shows on the door face.

The lock type is fixed at order time, because the door cut-out is made for the selected lock. Using one lock type along a row of lockers simplifies key and spare-part management.
