Compact Boot Washer

AISI 304 STAINLESS

A compact machine that washes boot soles by spraying water-detergent onto one sensor-controlled horizontal cylindrical brush.

HIGHLIGHTS

- **Sensor sole brush** — Sprays water-detergent onto one horizontal industrial motorized cylindrical brush to wash boot/sole bottoms.
- **Detergent pump** — A detergent-canister tank and detergent pump carry the water-detergent mix to the brush.
- **AISI 304 body** — Fully stainless steel; washable, corrosion- and chemical-resistant.

TECHNICAL DATA

MATERIAL	AISI 304
SIZE (L×W×H)	70 × 70 × 120 cm
ELECTRICAL	220–240V 50/60Hz, EU plug
